SCHLAGE

Everest 29™ SL

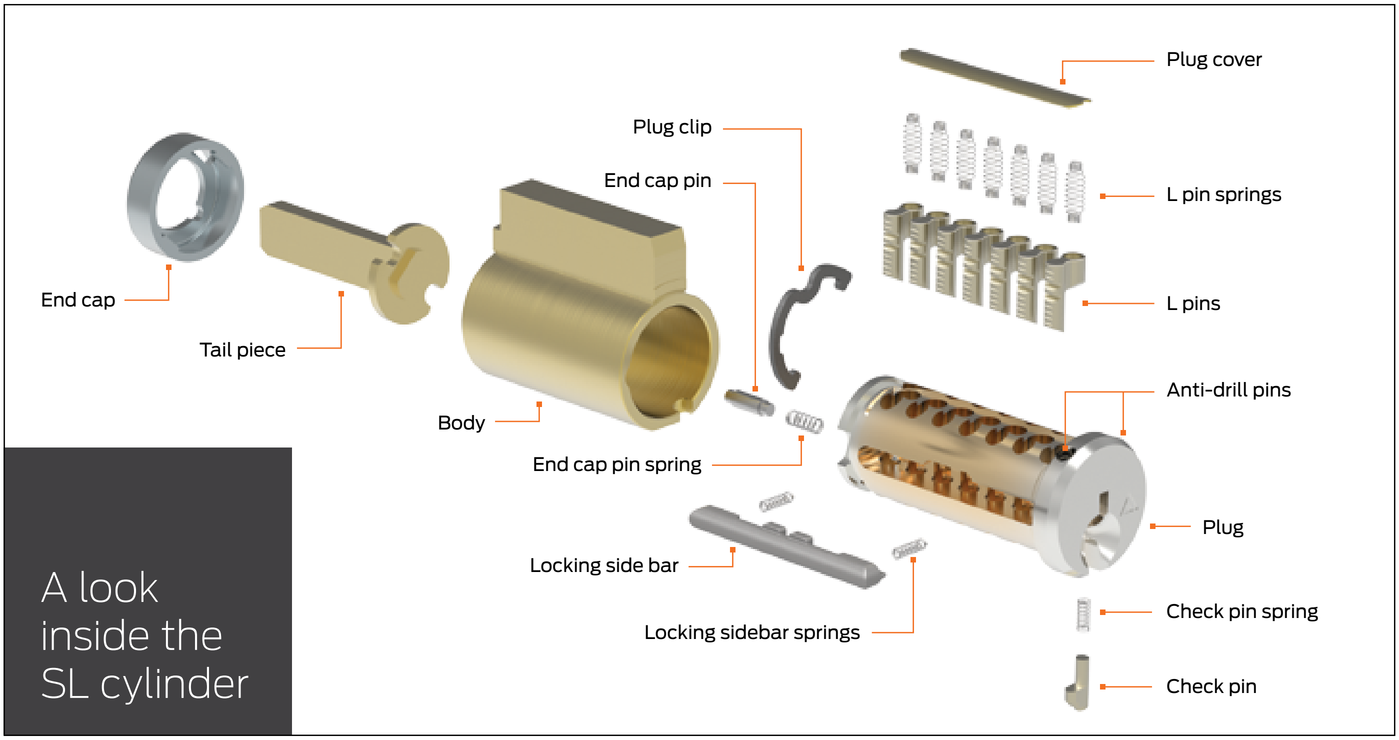

7 pin full size cylinder

The Everest 29™ SL cylinder provides users capabilities never before offered by Schlage. The SL cylinder accepts a Small Format Interchangeable Core (SFIC) A2 key system in a full size key in lever (KIL) cylinder. Buildings on multiple key systems can now be brought into the same restricted key system at a much lower cost than replacing installed cylindrical lock hardware.

A look inside the SL cylinder

Additional security gained with Primus® XP
